

# Secure the future of your financial operation with our cutting-edge 360° Security Solution

Advanced Services International

In the world of finance, information is the most valuable asset, and protecting it is a priority for every financial institution. Digitalization and technological advancements have brought an increase in the sophistication and frequency of cyberattacks, jeopardizing the security of your company's data and your customers' information. As a high-level executive, you cannot allow the vulnerability of your system to compromise the integrity and success of your business. With our cutting-edge Security Suite, secure the future of your financial institution and ensure the trust and satisfaction of your customers.

### Advanced data protection solutions:

- Data encryption at rest and in transit
- Robust access control and authentication
- Tokenization and anonymization of sensitive data

### Fraud prevention and detection:

- Real-time monitoring and early alerts
- Behavior analysis and risk profiling
- Fraud prevention tools for credit and debit cards

### Secure and resilient infrastructure:

- Protection against DDoS attacks
- Web Application Firewall (WAF)
- Virtual Private Network (VPN) and Network Segmentation

### Regulatory compliance and auditing:

- Compliance with international regulations such as PCI DSS, GDPR, and LGPD
- Risk assessment and management
- Auditing and incident tracking

Protecting your business and maintaining your customers' trust is a responsibility you cannot entrust to just any provider. Advanced Services International (ADSI) is your strategic ally in security, with over 28 years of experience in the financial sector and a team of highly skilled professionals. Our Security Suite guarantees comprehensive data protection and business continuity in today's ever-changing technological landscape.
